

Paracetamol & Ibuprofen

Please don't request paracetamol & Ibuprofen on prescription

North Norfolk Clinical Commissioning Group spent £400,000 on prescribed paracetamol & Ibuprofen last year

This is the equivalent of:

	80	MORE hip replacements or
	15,385	MORE hormone treatments for breast cancer or
	18,000	MORE Alzheimer's drug treatments (average cost) or
	490	MORE cataract operations or
	13	MORE chemotherapy treatments

If you are a patient who needs these drugs in regular large quantities, don't worry – you will continue to get them on prescription.

It's your NHS - please use it wisely!
